

EWC Research & Development project progress report

All the following mandatory information needs to be provided. The length should *reflect the complexity and duration* of the project.

Reporting year

.....

Project Title:

.....

.....

Principal Investigator(s):

.....

.....

Affiliation:

.....

Start date of the project:

.....

Expected end date:

.....

Summary of project objectives

(10 lines max)

.....
.....
.....
.....

Summary of problems encountered

(If you encountered any problems of a more technical nature, please describe them here.)

(10 lines max)

.....
.....
.....
.....
.....

Summary of plans for the continuation of the project

(10 lines max)

.....
.....
.....
.....
.....

List of publications/reports from the project with complete references

.....
.....
.....
.....

Summary of results

(A summary of the results so far. The length, at most 8 pages, should reflect the complexity of the project. Alternatively, it could be replaced by a short summary plus an existing scientific report on the project attached to this document.)
